**Pump Oil on February 18**

The 208 mile pipe line of the Producers Transportation Co. running through the California oil fields to Port Harford will be completed on February 18. This pipe line passes almost along the easterly line of the oil fields of the TEMPLE RANCH OIL CO. and this company will commence to deliver its entire daily product direct to the pipe line. This will mean the early payment of dividends, and I expect the company will soon be able to pay at the rate of one cent a share monthly. It has also been planned to list the stock on the San Francisco Oil Exchange shortly after the company commences the delivery of oil. This will undoubtedly cause the stock to advance to probably \$20 per share, or better. I have secured and offer a small block of the stock at 30c per share. I unhesitatingly recommend the purchase of these shares as an investment that should double and quadruple in value. Bear in mind that the investor who reaps the largest profits is the one who invests when the price is low. Compare the stock of the TEMPLE RANCH OIL CO. with every oil stock on the market today, and you will surely invest in the shares of this company. Do not delay, but send in your order NOW.

## ENGLAND'S PARTNER.

LONDON—At a special meeting of the London Chamber of Commerce Sir Albert Spicer, M. P., president of the chamber, delivered an address on "Australia and the Recent Congress of Chambers of Commerce of the Empire." The colonies, the lecturer pointed out, liked to look upon themselves as partners and not as children, and he maintained that we had arrived at that period in connection with the self-governing dominions beyond the seas where they could be looked upon as partners and no longer as children. In dealing with the principal resolutions brought before the congress he said that the one subject that created a great deal of interest in the Australian press was the question of immigration. With regard to the idea that there were certain parties in Australia desirous of keeping out immigrants, he said that that was not the case. What they did not want was for immigrants to come and settle in towns where there were already a quantity of men without any work. They did want immigrants to go on to the land, although they felt that further legislation was needed in the direction of closer settlement. Referring to the progress of trade and commerce in Australia, he said that the various State governments assisted industries at the start and then left them to private enterprise.

The lecturer made some interesting remarks with regard to the dissemination of exaggerated statements through the press. He said that in this country we had been running down our commercial position during the last six years, apparently forgetting that, after all, it was chiefly the extraordinary statements in a discussion that got into the newspapers. He counseled business men to see if they could not find some better way of preventing these statements regarding British decadence being prominent in the dominions beyond the seas.
